jagltoro@gmail.com

Málaga Spain

## PROFILE

I am passionate about new ideas and how to project them on a technological level, specifically software. I like to think that there is nothing we cannot do when doing software development. When it comes to projects, I am a hands-on and driven individual. I have a knack for creative problem solving and over ten years of experience in the software development field.

## EDUCATION

2029 - 2030

"VALLE DEL MOMBOY"
